

ABC

A PASSION FOR ENGINES

As a leading engine manufacturer, Anglo Belgian Corporation manages the entire engine manufacturing process, from development through to commissioning at the customer's site. Located in the centre of Ghent, our company employs 455 people. ABC engines are used internationally in ships, locomotives and generator sets.

At ABC, you'll be part of a revolution in the energy transition; we build engines that excel in efficiency, reliability, flexibility and performance. We're looking to strengthen our team with:

NUCLEAR PROJECT MANAGER

FUNCTION

As a project manager, you will lead a multidisciplinary technical team working on major projects, providing guidance, oversight and technical support. You will be part of a matrix organisation within the team; ABC itself operates a flat structure that offers both structure and autonomy.

Project management from strategy to project delivery

- › Defining the project strategy and resources based on engineering studies
- › Managing the progress of the project (resources, budgets, risks, contractual requirements, timelines, costs and standards)
- › Monitoring compliance (both functional and technical) with the project scope
- › Coordinating and leading all project team activities, including proactively identifying (potential) challenges, opportunities and risks
- › Consulting and communicating with the end client, including travel for face 2 face meetings (80%)
- › Reporting and communicating on project progress within the Major Projects team
- › Acting as a People Manager, providing feedback and coaching to your team

YOUR PROFILE

A customer-focused mindset with strong communication skills

A team player who encourages collaboration and builds trust and transparency within the team

Fluent in Dutch and English; fluency in French is a major asset

A Master's degree in Engineering with at least 10 years' experience in project management

Experience in nuclear or defence environments is a major asset

You thrive on managing complex projects with a high level of technical depth

WE OFFER YOU

You will be joining a dynamic environment where you can count on a comprehensive training programme. We offer a salary commensurate with your experience and skills.

Are you interested, or do you know someone who might be suitable?
