📅 7 May

🕒 10 am - 5 pm

📍 Wiedauwkaai 43, 9000 Ghent

**ANGLO BELGIAN  
CORPORATION**

We power your future

## ABC FRONTRUNNER IN CLEANTECH

### Will ports become low-emission zones like cities?

Will hydrogen replace all other fuels?

The future is not yet entirely clear ...  
agility is needed!

**ABC**, Ghent-based manufacturer of sustainable, multi-fuel internal combustion engines focuses on research, development and innovation.

Alternative fuels (methanol, hydrogen, biofuels, etc.), low emissions, carbon footprint reduction and hybrid systems are part of our daily activities.

## PASSION FOR ENGINEERING

The experience of more than 100 years of engine manufacturing in an international environment gives exceptional expertise and competence. Durability, reliability and simplicity in design are our goals.

**POWER  
PEOPLE**

**Are you passionate by engines** and looking for a **challenging, unique job?** Come and discover ABC, get to know your future new colleagues and be surprised by the grandeur of our working environment in the heart of Ghent. Any questions? At the job stand we will be happy to help you!

See you soon !
